

Measured Drawings of the Jaffrey Meetinghouse (85% complete) produced by Catlin + Petrovick, Architects of Keene, as part of a New Hampshire Historic Property Documentation project supported by a grant to the Town of Jaffrey, to be completed by the end of September, 2015.

Later this year large-format black & white film photographs of the Meetinghouse will be taken by Paul Wainwright.

An historical narrative of the Meetinghouse is now being prepared by architectural historian Mae Williams with the assistance of Robert Stephenson.

A presentation of the results will be made at the Meetinghouse on a yet-to-be-determined date this summer.
