Saturday 8:00 AM to 3:00 PM  
  
Jaffrey Residents Only  
Commercial (Recycling Only)

## **COMMENTS IN NO PARTICULAR ORDER**

1. Posting of Rules & Regs. At entrance or at main building.
2. Entrance sign. Remains 'as is' or replaced?
3. Large sign over facility building: Town of Jaffrey Recycling Center/Transfer Station.
4. Suggestions: Type font (Helvetica); dark green background/white lettering. Caps and lowercase; avoid all caps. More readable.
5. Swap shop. Identification sign and also one with days/hours/ rules, etc.
6. Should there be a new category for rocks, bricks & similar.
7. Useable building materials (there's currently a sign for this).
8. Would be helpful to have a site plan showing location of signs. Some are free-standing, some are attached to building(s)/structures, some are inside.
9. What will signs be made of; sign-making process.
10. Should 'corrugated' be added to 'cardboard'?
11. Should 'catalogs' be added to 'magazine'?
12. As current days/hours are shown on sample text above does that suggest recommended changes have been considered and rejected or are such changes still being considered? If latter, then why not make any changes prior to making the sign?
13. Present 'burn pile' restrictions sign has a variety of information. Would this sign be continued 'as is', done away with, or replaced with something new?
14. Town of Jaffrey stick-on logo (used on downtown street signs) might be considered as an addition to some or all signs.
15. I've seen recently a pile of 'soil' that people can take. Is this the product of the mulch pile? If so, an appropriate sign might be included.
16. Should the 'valid sticker...' sign go on to say how and where to get a sticker?
17. "Plastic (PET) #1 Symbol Soda, Juice etc." sign. Should PET be defined somehow (or left out entirely)? Comma before 'etc.'
18. Perhaps insert word 'users' after 'commercial' in final sign shown. And is this just Jaffrey commercial users or can a commercial user from any town come in?
19. Perhaps have a blow-up of what a valid dump sticker looks like.
20. 'Valid Sticker Required to Use Facility' sign: Somewhat misleading as commercial users can presumably use facility without a sticker as long as it's for recycling.
21. 'Rechargeable Batteries' sign. Curious as to why this is a different category than 'batteries.' Does that just refer to vehicle batteries? What about non-rechargeable household batteries?
22. 'Hazardous Waste See Attendant.' Is there hazardous waste disposal or does attendant tell resident about scheduled hazardous waste days?
23. Perhaps have a Suggestion Box with a sign to that effect.
24. Perhaps a sign and rack for handouts with annual schedule, rules & regs, hazardous waste schedule, etc.
25. What is the 'paper bags' category?
