

234 Berkeley Street
Boston, Mass.

January 25, 1927.

Mr. J. Denny Soper,
Victoria Memorial Museum,
Division of Biology,
Ottawa, Canada.

Dear Sir:

In answer to your letter of January 15 I regret to inform you that the "Handbook of Travel" has been out of print for some time.

Yours very truly,

Secretary.

DEPARTMENT OF MINES

CANADA

VICTORIA MEMORIAL MUSEUM

Ottawa, Ont. January 15, 1927.

Secretary,
Harvard Travellers Club
Cambridge, Mass.

Dear Sir:

Will you be kind enough to inform me what the price is of the latest edition of the "Handbook of Travel" ? To whom should I send remittance?

Thanking you in advance for this information, I
remain

Yours very sincerely,

J. Dewey Soper
Div. of Biology.

THE DEPARTMENT OF PHYSIOLOGY
HARVARD MEDICAL SCHOOL
240 LONGWOOD AVENUE, BOSTON, MASS.

May 6, 1932

Mr. George A. Lyon
P. O. Box 2287
Boston, Massachusetts

Dear Mr. Lyon:

I am gratified that you should want me to be Chairman of the Committee on revising the Handbook of Travel, but unfortunately it would be quite impossible for me to undertake it. I am still struggling to clean up odds and ends resulting from the Labrador trip, and have been unable to get back into my own work, which I am eager to do as soon as possible. This consideration, together with editorial duties and family problems, makes it entirely out of the question to take on anything new.

If a suggestion is in order, I should like to propose Tom Cabot for this job. I believe he would do it very well indeed, as he has travelled extensively and knows a good deal concerning nearly every mode of travel there is.

AF DG

Yours sincerely,

Alexander Forbes

THE DEPARTMENT OF PHYSIOLOGY

May 12, 1932

Mr. George A. Lyon
P. O. Box 2287
Boston, Massachusetts

Dear Mr. Lyon:

In reply to yours of May 10, I really ought not to take on anything more at all, but I imagine I can do a small share of the preparation of the Handbook if you are able to get a suitable person to organize it as Chairman. If Tom Cabot is out of the question, I believe Henry Hall would do well as Chairman. As to the number on the Committee, I think five would be better if you can get each one to do his share of the work.

AF DG

Yours sincerely,

Alexander Forbes

OUTLINE FOR HARVARD TRAVELLERS CLUB
HANDBOOK

Introduction: explaining purpose and plan

A. Travel Methods (This would start off with the more refined methods of travel)

1. Auto ^{mobile} and tractor *Wilson + Colby*
2. Airplanes *F. Forbes*
3. Out-board motors and motor boats
4. Horse and mule travel *Fay*
5. Sledding with and without dogs *Erickson, Vaughan + food date - W.S. J. Ladd*
6. Reindeer transport *Hopper - Lehman*
7. Camel travel *Warner + Thomas*
8. Llamas as pack animals
9. Diseases of transport animals
10. Skiing and snow-shoeing
11. Mountain climbing: but perhaps not so much from the sport standpoint
12. Canoe travel: eliminating canoeing from the standpoint of sport
13. Cruising

B. Specialized information and Mapping

1. Position finding: observation; radio
2. Traversing
3. Surveying
4. Airplane mapping

C. Records and Observations

1. Photography
2. Collecting: (a) Zoölogical; (b) Botanical; (c) Geological
3. Anthropological and ethnological studies
4. Meteorological studies

D. Miscellaneous

1. Camp hygiene and sanitation
2. Hints on medicine and surgery
3. Kinds and quantities of food
4. Arms and ammunition for dangerous game and self-protection
5. Pot hunting and fishing
6. ~~Regional information~~

Short annotated list of books

Index?

Table of Contents

Camp cooking

" Egypt

Woodcraft

Subarctic
Arctic

Outline for Revised Edition of Travellers
Club Handbook

- - - - -

I Introduction explaining purpose and plan of book.

II Part I
Methods of travel in various parts of the world by geographical areas.

1. North Country Travel
 - a. Laborador
 - b. Canadian Northwest and Alaska
2. Mexico and Central America
3. Northern South America
4. Southern " "
5. Equatorial Africa
6. Southern Africa
7. The Near East, Persia and Arabia
8. Northern India and Western China
9. Burma and the Malay States
10. Siam and Cochin China
11. The Dutch East Indies
12. The Philippine Islands
13. The South Sea Islands
14. Australia and New Zealand
15. Korea and Manchuria
16. Central China

Part II

Exploration, Science and Hunting, Organization, Camp equipment, and Camp cooking for

1. (a) The Arctic
(b) The Tropics
(c) The Temperate Zones
2. Special equipment for
Mapping. Traversing. Surveying. Airplane mapping.
3. Big game shooting by regions
4. Zoölogical collecting by "
5. Botanical " " "
6. Anthropological " " "
7. Geological study
8. Meteorological observations
9. Photography
10. Filling the Pot
11. Camp hygiene and sanitation
12. Medicine and surgery.

Notes: A short list of useful references to be appended to each chapter. The chief headings of each chapter to be listed at the beginning of it.

SUGGESTIONS FOR A SECOND EDITION OF THE
HANDBOOK OF TRAVEL.

The following list covers things which I have wanted but have not been able to find in this Handbook.

1. A Metric Conversion Table more complete than that which appears on Page 273.

2. (a) Treatment for such common diseases as measles, mumps, chicken pox, etc.
(b) More information on the treatment of eye troubles.
(c) A list of the most useful drugs, like that which appears in "Hints to Travellers", of the Royal Geographical Society, indicating especially the drugs which can be used for most purposes, Argylol, Sulphur, etc.
(d) A discussion of serums, such as those used for plague, diphtheria, etc.; dosage, period of protection, etc.
(e) A short description of the common illnesses of horses and dogs and the proper treatment would sometimes be very helpful.
(f) Some notes on dentistry should be given.

3. A page of handy formulae could be added to great advantage. It should give the essential formulas of trigonometry; at least the Sine law and the Cosine law, and the definition of all the trigonometric functions. It should also give the

length of a pendulum to beat seconds, the relation between the length of a stern wave and the speed of a boat, and similar bits of information. A table of natural Sines and Tangents could be added, which would occupy only two pages. The tables now in the book are so specialized that they can be used for only one purpose. The additions that I have suggested would make many other calculations possible.

4. Photographic Section. The photographic section is very good indeed as it stands, but it would be a good deal more helpful if it gave more details, both of camera sizes and of methods for meeting particular tropical difficulties. I believe discussions of the types of cameras and their suitability for different kinds of work, like the discussion of rifles, would be very helpful. Special tropical developers have been brought out since this section was written, and should be discussed. The mechanics and machinery of field developing are about as important as its chemistry; this could be treated with advantage. To cover this ground would enlarge the section considerably, but I think the step would be justified, because there is no decent discussion of photography for the ^{traveller} ~~traveller~~ anywhere, as far as I know. The quantity of chemicals required for given areas of negatives could be mentioned to advantage. It would be well to list the sizes of films and plates which can commonly be bought in different countries.

5. Zoological Section. The formula for arsenical soap should be given..

The method of pickling mammal skins in tropical climates should be described. If denatured alcohol is suitable for pickling specimens the fact should be mentioned.

If birds can be preserved by injecting them with Formalin, the fact should be noted; often they must be preserved in this way or not at all.

6. Gun and Ammunition Section. A table of shot sizes with charges for powder and shot, *for various birds* could be added to advantage. There should be some discussion of the various new bullets which have come on the market since the first edition of the book. A list showing cartridges commonly obtainable in different countries would be most valuable.

7. Survey. Radio receiving has developed tremendously since the first edition. A list of stations sending accurate time signals and of the wave length on which they send them would be most valuable. A discussion of the best portable receiving sets for catching time signals would be desirable.

8. Foods. A formula for preserving butter would be very useful. The army's ration list, which is a very good starting point on calculating food supplies could be given with advantage. Kephart's book on Woodcraft is far the best reference book on camp foods and should be mentioned.

9. Geographical Section. Such a section could be added to cover general conditions and methods of travel in parts of the world that members have visited. Those already in the book are very good indeed, but a good many areas are not covered.

May 26, 1932

Mr. George A. Lyon
P. O. Box 2287
Boston, Mass.

Dear George:

I am ever so much obliged to you for your contribution. It comes at a good time.

As to serving on a committee to revise the Harvard Traveler's Club book, I do not think I am competent. I wrote a chapter on guns and ammunition in the original book, which would have to be very much changed at the present time.

Sincerely yours,

President.

May 31, 1932

Dear Lyon:

Your letter of May 27th received. I have decided to undertake the chairmanship of the Committee to Revise the Harvard Travellers Club Handbook and am very glad to hear that Allen and Tom Cabot are willing to serve on it. I will write to Alexander Forbes and John Phillips and ask them to join us. Then I shall plan to have a meeting of the committee before very long and discuss with them a revised outline such as I showed you and make up a list of contributors.

Meanwhile, I shall be very glad to have your views and suggestions about contributors assuming that the work is to be handled in some such way as was proposed in the outline which we discussed. Probably you will have suggestions to make from time to time, - at any rate I hope so, although I don't promise to act upon them.

Sincerely yours,

Mr. George A. Lyon,
P.O. Box 2287,
Boston, Mass.

June 7, 1932.

Harold J. Coolidge, Jr., Esq.,
Museum of Comparative Zoology,
Cambridge, Massachusetts.

Dear Harold:

Thank you for your note of June 3rd and its enclosures. You have been very helpful in giving me your judgment on possibilities for our meetings, which I appreciate a good deal.

I did not take up with you the question of the Committee to revise the Handbook of Travel because I found it hard to get in touch with you and also because it seemed to me that we would be more or less in agreement with George Shattuck as chairman. Glover Allen will serve as a member and will tie the thing in to the preceding edition, and Cabot, the new member of the Council, will tie it in to the Council. That will make a flexible working arrangement and Dr. Shattuck can add others if he wishes, but can get all the advice he wants without having people on the Committee with whom he will have to consult. I hope you approve.

I will want to talk with you some time soon about publishing the Club History, which will be completed in a short time now, and I will try to get in touch with you before long.

Sincerely yours,

George A. Lyon.

PART V - BIBLIOLOGY

GEORGE CHEEVER SHATTUCK, M. D.
520 COMMONWEALTH AVENUE
BOSTON, MASS.

June 11, 1932

Dear Lyon:

The upshot of the meeting of our Committee for Revision of the Handbook yesterday resulted in a considerable modification in my views regarding what we had better undertake.

At the end of the meeting it was agreed with those still present that Part II in the outline which was distributed on June 8th ought to come first and that several additional headings should be stressed; for example, under "Mapping", determination of position and use of radio were urged specifically and the following additional sections were thought worthy of inclusion:

1. Methods of horse travel
2. Motor boats and out-board motors
3. Automobile for travel and transport
4. Aeroplane for travel and transport

Having slept on the matter, I have become more favorably impressed with the original arrangement of the book and less desirous of undertaking to provide specific information for regions. In consequence of this change of view, I am asking each member of the Committee to make up an outline of what he would like to see done, including the arrangement that appeals to him and without paying any regard whatever to the tentative outline which we discussed.

Please do this within the next few days and send it in to me. As soon as I have received the outlines I will call another meeting of the Committee to discuss methods of presentation. It seems unnecessary to discuss names until later.

Sincerely yours,

G. C. Shattuck

Dear George:

Thank you for the return of the article on Holzworth. I read the letter from Cumming with great interest. I think he realizes just as well as we do that Holzworth is not a very reliable person. Of course, he could not go much further, being in the position of a person paid to do Holzworth's work.

Glover Allen and I got together and sketched out something on the proposed Harvard Traveler's Club Book. I am very glad that George has decided against Part One. I believe that this part should be an adequate bibliography by geographical regions with pertinent remarks on each book as to just what phase of travel is taken up so that one may judge pretty well the contents of the various books. This will be a very valuable appendix, although soon out of date. However, we can't help that.

Sincerely yours,

John C. Phillips

January 6, 1933

Dear

George

Please find enclosed outline for proposed revision of the Harvard Travellers Club Handbook. This has been freshly prepared on the basis of letters received last June from members of the Committee and includes everything that has been proposed except the regional information because most of us agreed that to handle the book on a regional basis would make it too long. I assume that those writing such sections as "camel" or "dog-sled" travel will name the region where they obtained their experience and will incorporate such additional information from other regions where similar methods of travel are used as they may be able to obtain.

I think, also, that each author should put at the end of his contribution the names of several books which he has found useful and a brief statement as to their relative value.

Please look over the outline at earliest convenience and send me comments as to arrangement and subject matter and, in particular, tell me whether you would wish to include anything further or to cut out anything listed.

I hope soon to have a meeting of the Committee.

Sincerely,

G. Cheever Shattuck

Mr. George A. Lyon,

Harold J. Coolidge, Jr. Esq.
c/o Museum of Comparative Zoology
Cambridge, Massachusetts

Dear Harold:

Will you be good enough to approach Prof. Bruce Hopper and ask him if he will write a chapter on Reindeer Travel for the new Handbook? We would want from 1,500 to 2,000 words, and it ought not to be much of a chore. Carl Lohman, the man who established the Alaskan reindeer herd will be available during the winter in or near Boston to confer with, if Professor Hopper should wish to do so. Urge him as strong as you can, please, as we do not know whom else to try.

Have you heard anything from Sir Frederick Whyte? I am strongly tempted to get Dyott for February 28 as he is ready and glad to come, and has an interesting story.

I suppose you are going to lunch with Dr. Strong on Friday, and I will see you then.

Sincerely yours,

GAL:F

Dear Lyon,

We have accepted the page
proof on the Triverters Club
History and it would help
the printer if you could now
forward him the promised
check for \$125 in half
payment. It should go

To Samuel Marcus
40 Samuel Marcus Press
40 Boylston St.
Cambridge.

I enclose a letter of interest.
If I should be asked I am very
much in favor of one vice-president for
our club instead of two, and I definitely
want to go on the council next year.
Ever sincerely yours

GEORGE CHEEVER SHATTUCK, M. D.

520 COMMONWEALTH AVENUE

BOSTON, MASS.

April 10, 1933

Dear Lyon:

Can you get in touch with Bertram Thomas and ask him to write the section for the Travellers Club Handbook on "Camel Travel in Africa"? In the old book it was written by Oric Bates and had the following headings: Selection of Camels; Hire of Camels; Camelleers; Baggage and riding-Camels; Riding; Equipment; Water; Food; General Precautions. This article included a line-cut of a camel-box and a diagram of the method of slinging camel-boxes. These could easily be copied if they are what is still advised. The two cuts took up about a page and the printed matter between 6 and 7 pages with 250 to 300 words to the page.

Sincerely yours,

S-N

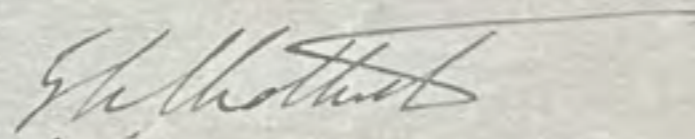

GEORGE CHEEVER SHATTUCK, M. D.
520 COMMONWEALTH AVENUE
BOSTON, MASS.

April 14, 1933

Dear Lyon:

I have only one copy of the H.T.C. Handbook and I can't send it to Thomas because I am using it. It is necessary for me to have it in the office for purposes of revision. The Section on "Camel Travel in Africa" by Oric Bates is entitled "The Dromedary" and has the following sections: Selection of Camels; Care of Camels; Baggage and Riding Camels; Riding; Equipment; Water; Food; General Precautions. It also has 2 figures one showing a camel box and the second the manner of slinging them, showing knots, etc. This section occupies between 6 and 7 pages of from 250 to 300 words each, not counting the space taken by the diagrams. I would suggest sending this information to Thomas and also the enclosed copy of the outline for the new edition and leaving it to him to do what he thinks best with the understanding that the article should deal with essentials and should be as brief as is consistent with the purpose.

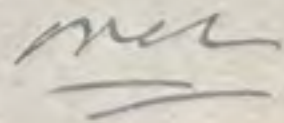

Sincerely yours,

S-N
enc

P. S. I don't know

where we could borrow a copy.

Mr. George A. Lyon
10 Post Office Square
Boston, Mass.

Dear Lyon:

Thank you for your good letter of April 12. I was much interested in the notes on the meeting of the Council and am very pleased at everything that you decided upon, particularly the policy of keeping any ~~kind~~ traveling members down to ten percent.

After we had returned the galley proof of the Travellers' Club history, I got word from Dr. Strong that we should show a copy of the proof to Dr. Rice. He took it to New York with him and wrote me a nice letter about it, in which he suggested making two additions. By this time the history was in page proof form and according to our agreement with the printer we would have to pay extra for additions or changes in text. I talked the matter over with Dr. Allen and he seemed to agree with me that we had better include the two points mentioned by Dr. Rice as a matter of policy and good will, if for no other reason. We did it as carefully as possible, but it will increase the cost of the publishing, I imagine, by some ten or fifteen dollars because of the moving of type all along the line.

I am sorry that Dr. Rice does not approve of the plans for the Hand Book, and I do not see how it can satisfy him and everyone else.

Sincerely yours,

- Harold -

DEPARTMENT OF TROPICAL MEDICINE

HARVARD UNIVERSITY MEDICAL SCHOOL

Boston, Mass., April 21, 1933

Dear Lyon:

I have your letter about the camp-cooking question. On the list of names which you suggested I should rule out Barbour, Elton Clark and Iselin and should be inclined to rule out Wulsin although I feel doubtful about it. As to Henry S. Hall and W.S. Ladd, I don't know either of them and can form no opinion.

I am inclined to think that Furlong would be the best of the lot inasmuch as he has travelled widely for many years in a good many different countries. Unless you recommend especially (Hall or Ladd), I should like to ask Furlong to do this job.

No (Cabot says)

On April 24th I am moving to the Harvard Medical School. Please address me there, in the Department of Tropical Medicine, Building D-I. Telephone Longwood 2380.

Transport.

Howard Palmer. Mountaineering. Letter
written by Tom Cabot on January 28th to
Hotel Mohican, New London, Conn. I sent
a letter to the same address on March 17th.
No reply whatever. *Box 527
Wentworth
R9*

Parker Kemble. Letter addressed to Marblehead,
Mass. on March 18th. Requested to write on
Outboard Motors and Motor-Boats. A previous
letter from Tom Cabot, dated January 28th, to
the same address. No reply.

If we can't get something out of these men pretty
soon we will have to assign the Sections to somebody else.

I shall appreciate any help you can give in
getting in touch with them.

Sincerely yours,

G. G. Shattuck

April 28, 1933.

Bertram Thomas, Esq.
East India United Service Club
St. James Square
London S. W. 1, England

Dear Mr. Thomas:

By way of recalling myself to you I am writing to tell you that I have the pleasant recollection of the night that you were the guest of our Travellers Club in Cambridge and gave us such an interesting evening.

The Club is engaged in revising its "Handbook of Travel" published in 1917 and now out of print. In that book the Section on "Camel Travel in Africa" was written by Oric Bates, a member of the Club. It was entitled "The Dromedary" and was divided up as follows:

Selection of Camels
Care of Camels
Baggage and Riding Camels
Riding - Equipment - Water - Food
General Precautions

It also included a line-cut of a camel-box and a diagram of the method of slinging camel-boxes. The two cuts took up a page and the printed matter about eight pages with 250 to 300 words to the page.

We have no member of our Club at present who is competent to revise such a chapter to date, and I am writing to ask whether you would be willing to do it for us. Unfortunately I cannot send you a copy of the Handbook because it is most difficult to get anyone to lend a copy as it is so rare. The two figures mentioned in the article could easily be copied if they are what is still advised. I am enclosing a rough outline of the new edition and we would be willing to give you complete discretion, the only limitation being that the article should deal with essentials and be as brief as is consistent with the purpose.

Bertram Thomas, Esq. - #2

4/28/33.

I fully recognize that this is asking a good deal on such short acquaintance but I believe that you will find the character of the book one to which you would be glad to contribute, and we certainly would greatly appreciate your cooperation.

Very sincerely yours,

GAL/G
enclosure

George A. Lyon, Secretary
Harvard Travellers Club

P.S. Fulton Cutting very kindly suggested my trying to get in touch with you at The Athenaeum Club.

Dear Shattuck:

The following is to bring down to date the subject of your various recent letters to me and indicate to what extent progress has been made:

Letter of April 27:

I have spoken to Mr. Fay and he much regrets the delay. He got your letter of March 10 and has since then intended to do something about it. He will.

Howard Palmer appears in our book with an address of Box 527, Westerly, Rhode Island. I will write to him and see what result there is.

Parker Kemble I do not know and have no way of checking up. Someone else will have to attend to this.

Letters of April 10 and 14:

I have had some difficulty in locating Bertram Thomas but have finally managed it and have written to him. The rest is on the "lap of the gods".

I am not certain whether William Lord Smith is still in the American Museum in New York. Harold Coolidge with whom I tried to check on this is away but I will endeavor to get the information.

4/28/33.

Letters of April 12 and 21:

The Camp Cooking Section seems very difficult of selection. The list I gave you was boiled down to Hall, Ladd, and Furlong. Tom Cabot says that neither of the first two would do. Furlong told me that he was not up-to-date on this kind of thing. So they are all out.

Cabot thinks that Worthington would do the best job but he has a lot of other work to do, I believe, for us. Other possibilities are Bradford Washburn, a man names Robert Morgan, whom I do not know personally, Donald McMillan, or Kermit Roosevelt. The latter was a member but has resigned. I should think John Phillips might handle it, but perhaps he has his hands full. Possibly I had better write to Sinclair Kennedy to see what he has to say, and that I will do anyway.

Sincerely yours,

GAL/G

April 28, 1933.

Howard Palmer, Esq.
Box 527
Westerly, Rhode Island

Dear Mr. Palmer:

The Harvard Travellers Club, of which you are a member, is revising its Handbook. You contributed the chapter on "Mountain Planning" in it. We wrote you under date of January 28 and March 17 addressing the letter to Hotel Mohican, New London, Connecticut, and asking you if you would be willing to bring this chapter down to date in the new book, but no reply has been received from you or acknowledgment.

We would tremendously appreciate your cooperation in this matter and as it is probable that you did not receive our letters this one is being sent to the address which appears in our Club Book, and I hope it reaches you.

Very sincerely yours,

George A. Lyon, Secretary
Harvard Travellers Club

Sinclair Kennedy, Esq.
Infanta 8 - Terreno
Palma De Mallorca, Spain

Dear Mr. Kennedy:

I am using the address to which I wrote you last, but that was some time ago and may not be your present abode, so I am sending a copy of this letter to the address in the Club Book, which is - Patterson, Putnam County, New York - a pretty generous order, I should say. However, I hope this will reach you in Spain.

The revision of the Handbook is progressing more rapidly under the direction of George Shattuck, and I hope that we will get it completed not later than next fall, although it is a slow process. You wrote a chapter on Camp Cooking in the 1917 edition. We want to have it revised and brought down to date to cover approximately the same space in the Book. Do you care to undertake this? If you do not, have you anyone in mind whom you believe competent to do it? It might be well to consider some young man who has been active in travelling off the beaten path, as camping methods and equipment, no doubt, have changed like everything else, although I am not aware in just what way.

Will you please let me hear from you as promptly as you possibly can, and with kind regards, believe me

Sincerely yours,

GAL/G

May 20, 1933.

Dr. George C. Shattuck
Department of Tropical Medicine
Harvard Medical School
Longwood Avenue
Brookline, Massachusetts

Dear Shattuck:

I wrote to Kennedy and Palmer, as I told you I would, and this is to report that no replies have yet been received. I also approached John Phillips on the Camp Cooking Chapter and he felt that he was not competent to take it.

I have written to Bertram Thomas at three different addresses and hope to get in touch with him shortly. In the meantime, I find that he has been invited to deliver the Lowell Lectures next fall and will arrive in this country on the 1st of October, to be here until the 15th of December. Therefore, if we do not land him by correspondence it is quite likely that we may be able to arrange the matter next fall.

I will let you know as soon as anything develops, and with kind regards,

Very sincerely yours,

GAL/G

May 22, 1933

Dear Lyon:

Just received your letter of May 20th. Meanwhile, I have heard from Palmer. I hope very much that you will be able to get in touch with Thomas before long because I want to have the book on the market by October if possible.

The Camp Cooking question is really a difficult problem. I shall do nothing further about it until you hear from Kennedy.

Sincerely yours,

Mr. George A. Lyon,
P.O.Box 2287,
Boston, Mass.

May 24, 1933.

Dr. George C. Shattuck
Harvard Medical School
Longwood Avenue
Brookline, Massachusetts

Dear Shattuck:

I acknowledge receipt of your letter of yesterday and am writing to correct a statement that I made in a letter to you dated May 20 about Bertram Thomas. As far as I know, he is not to be in the United States this fall. Confusion arose from the fact that the Lecture Bureau, to which I wrote for his address, advised me that he would be the Lowell Lecturer next fall. They intended to say that Sir Frederick Whyte would be coming here then. I passed on the information that they gave me to you. I will follow up this matter of Thomas vigorously but cannot do much until I get in touch with him.

Apparently, my letter to Palmer got results for you, for which I am glad. It is also most comforting to know that you expect to get the Handbook in shape for publication next fall.

Sincerely yours,

GAL/G

George A. Lyon.

Bertram Thomas, Esquire
Trinity College
Cambridge, England.

Dear Mr. Thomas:

I have this morning received a note from you mailed from Cambridge, England, but not dated, and I was very glad to hear from you. I am turning over your note to Dr. Shattuck, who is Editor-in-Chief of the new edition of the Handbook of Travel. He will be as disappointed as I am to know that you feel that you are so full up as not to permit you to tackle this new job.

However, we much appreciate your attitude towards our proposal, which was, we admit, a little "cheeky" but we felt that there was no one who could handle this subject so satisfactorily as yourself.

Perhaps when you get over here in the fall we may have the pleasure of hearing from you again, and you may be sure that if you are in Boston we shall welcome you very cordially.

Sincerely Yours,

George A. Lyon, Secretary
Harvard Travellers Club

June 2, 1933.

Dear Mr. Lyon,

Baedekers Guide-books are bound in sections and the sections are then bound into a book. This permits a section to be cut out, leaving the others intact. It is extremely convenient. They even sell a miniature binding or cover to protect one or two sections when the latter are in use. I do not know about the expense of such multiple binding in the U.S. It might induce members to buy two copies of the Hand-book, one for their libraries and one for cutting up. I suggest you send this letter to Dr. Shattuck.

The Camp Cooking section I am still working on. When I drafted the stuff for the old Handbook I asked for comments, as I considered it not finished. In the rush, it was never sent back to me for further elaboration. Perhaps the Editor thought it already long enough. This time I am trying to make it more comprehensive without lengthening it too much. You will receive it as soon as I get it thrashed out.

I still hope Stefansson will contribute a chapter on arctic equipment and methods. It would be a wonderful addition. If he has to be paid for it, ask me for a modest contribution - say \$10. or \$25. In these days I dare not promise any future money, but that is how I feel now.

Cordially
Vinclair Kennedy.

June 3, 1933.

H.T.C.

Dear Mr. Lyon,

The enclosed is self-explanatory.

The Club History somehow escaped my notice till I got the Annual Report. I don't know what it costs, but I want a copy sent to this address. Please inform me how much to remit and to whom.

Your idea of a revival of the Public Exhibition appeals to me. ^{Quite} Quite apart from the interest it arouses in members who contribute, it educates the young from whom future members will come.

Sincerely
Sinclair Kennedy.

June 6, 1933.

Dr. George C. Shattuck
Harvard Medical School
Longwood Avenue
Brookline, Massachusetts

Dear Dr. Shattuck:

I enclose herewith a reply from Sinclair Kennedy to my letter of May 4th in the form of a postscript thereto, all of which is self-explanatory. I should say that this clears up the Chapter on Camp Cooking, provided his revision seems satisfactory. When it comes I will forward it to you.

It suddenly occurred to me yesterday that Sven Hedin would be just the man to revise the Chapter on Camel Travel, inasmuch as Bertram Thomas cannot do it. What do you think of that? Harvey Cushing will probably know where he can be reached. He is an honorary member of the Club and I feel very sure would be glad to help us out.

Sincerely yours,

George A. Lyon

GAL/G
enclosure

GEORGE CHEEVER SHATTUCK, M. D.
HARVARD MEDICAL SCHOOL
BOSTON, MASS.

June 7, 1933

Mr. George A. Lyon
P.O.Box 2287,
Boston, Mass.

Dear Lyon:

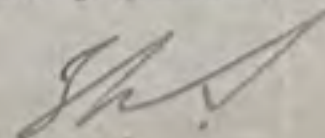

Thanks for your letter with enclosure from Kennedy saying that he will revise his Section. Please drop him a line once more and ask him to send a carbon copy with his manuscript so that we shall have a duplicate in the office when the book goes to the printer and please ask him to send in his name and initials as he wishes it to appear in print.

Your suggestion about Sven Hedin for the Camel Section is a good one provided he has travelled in Arabia or Africa. Langdon Warner expects to get manuscript from Lattimore about Asiatic camel travel. On the other hand, I doubt very much whether methods of camel travel in Africa or Arabia have changed much and I should suppose that we could reprint Bates' article on the subject. Please let me hear from you again about Sven Hedin and please write to him if that seems the best course. You know him and I don't. According to information received from the Peter Bent Brigham Hospital today, Dr. Harvey Cushing can still be reached there.

I have just read Ward's article on Meteorological Observations. I like it very much and find it impossible to shorten it without very material changes. With regard to this matter, Gardner Emmons writes me as follows: "Personally I do not feel that the average traveller is sufficiently interested in the keeping of a meteorological journal solely for his own personal use to justify the inclusion of a detailed set of instructions for making meteorological observations. Quite probably I am wrong in this belief, and if my suggestion of a discussion of the aneroid barometer only does not appeal to you, I shall be glad to modify and condense Professor Ward's article as may seem suitable for the purposes of the Handbook. As I have said, Professor Ward's article is admirable and still absolutely up-to-date as far as observations for personal use go."

I should be inclined, if we have space, to reprint Ward's article with minor changes which I have made; but if the book bids fair to be too large, it would become necessary to limit it to the discussions of the aneroid barometer as Emmons proposes. What do you think?

Sincerely yours,

June 11, 1933.

Dr. George F. Shattuck
Harvard Medical School
Longwood Avenue
Brookline, Massachusetts

Dear Shattuck:

I enclose a letter just received from Bertram Thomas, which is self-explanatory, and I also send you a copy of my reply to him.

I do not know what we can do now about the Camel Chapter. It is possible that we might persuade Thomas to help us out when he gets over here in the fall but by that time we will want the book in the printer's hands.

If I can help you further in the matter, please let me know.

Sincerely yours,

GAL/G
enclosures

George A. Lyon

June 12, 1933.

Dr. George C. Shattuck
Harvard Medical School
Longwood Avenue
Boston, Massachusetts

Dear Doctor:

Replying to your letter of June 7, I have been trying to get in touch with Dr. Cushing and hope to do so soon. The more I think of it, the better qualified Svenhedin seems to me for this job, even though he may not have travelled in Arabia or Africa - where, however, I think he must have been. I think you are right in believing that methods of travel have probably not changed much but we ought to do all we can to be sure about it.

I agree with you on Professor Ward's article, namely, that we reprint it as a whole if we have space, and if we want to cut it down that we substitute the Aneroid Barometer as Gardner Emmons suggests.

I will see that a copy of the Kennedy revision of Camp Cooking is prepared for you as soon as his manuscript is received.

Sincerely yours,

GAL/G

George A. Lyon.

June 18, 1933.

Dr. Harvey Cushing
Peter Bent Brigham Hospital
Huntington Avenue
Boston, Massachusetts

Dear Dr. Cushing:

The Harvard Travellers Club is engaged in revising its Handbook of Travel published in 1917, and this is being done under the direction of a committee headed by George Shattuck.

The Chapter on Camel Travel was written by Eric Bates who is now dead. I wrote to Bertram Thomas, who, you will remember, crossed the Arabian Desert last year, which was an extraordinary accomplishment, to revise this section. He has just replied from London saying he is too busy. This leaves us more or less in the air on this subject, because it is a difficult one to find anyone sufficiently qualified. Do you think Dr. Svenhedin would do it for us? He was made an Honorary Member of the Club when he was here last year and he has been very friendly in one way or another. Would you be willing to approach him on the subject on our behalf? If you do not care to do this and still believe he would be a good authority to approach, can you tell me how to reach him by letter or telegraph?

Any action that we take in this respect must be prompt, inasmuch as we hope to get the book out in October and there is a great deal still to be done. I will very much appreciate any help that you can give me on this subject, and trust that you will let me hear from you as soon as possible.

Very sincerely yours,

George A. Lyon, Vice President
Harvard Travellers Club

George A. Lyon, Esq.,
P. O. Box 2287,
Boston, Massachusetts.

Dear Mr. Lyon:

I have your letter of June 12th with its suggestion that Sven Hedin be called upon to help with the revision of Mr. Bates' book. I don't suppose anyone living has ever spent more time on a camel than Sven Hedin; but he is still in China, and when he is likely to return I do not know. What's more, he probably has his hands more than full with writing up his own expedition, so I fear it would be something of an imposition to ask him to take on this task for, as you say, he is such a friendly person he might be inclined to accept it.

I understand that he is likely to be in Chicago sometime to see the Exposition where, as you know, he has put up a lama temple. However, when this will be I haven't any idea; nor do I know just how to get hold of him.

Sincerely yours,

Harvey Cushing, M.D.

GEORGE CHEEVER SHATTUCK, M. D.
HARVARD MEDICAL SCHOOL
BOSTON, MASS.

June 13, 1933

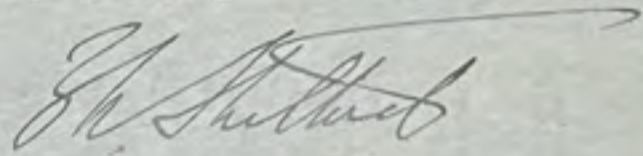

Dear Lyon:

Just received yours of June 12th. Please send two copies of Kennedy's camp cooking because I hate to send manuscript to the printer without having a copy kept in the office.

Now for another matter. Jack Worthington is getting together some suggestions about equipment and will abstract a certain amount from Cabot's chapter to be used in connection with it. I am going to add a short section on Equipment for the Tropics. In the old book, on page 81, there is a section by George P. Howe on Arctic Clothing and Sleeping Gear covering 2 pages. I should like to have this gone over and revised by somebody who has been on a recent trip and should suppose that one of the young fellows who went with Byrd could best do this. As I don't know them, perhaps you will be kind enough to get this done for me and to ask the writer to get the manuscript to me as soon as possible and to send two typewritten copies.

A copy of the article taken from the old book is enclosed.

Sincerely yours,

Mr. George A. Lyon,
P.O. Box 2287,
Boston, Mass.

P. S. I think a good deal could be added advantageous to the attached list regarding kinds of cloth & their uses & manage-
ment & a section on supplies to avoid survey & would be
useful. G.H.S.

Dear Sir:

Can you advise me how to get in touch with Dr. Sven Hedin who, I suppose, is still in China? He is an Honorary Member of the Harvard Travellers Club, of which I am Vice President, and I want to get some knowledge of his probable movements in the next few months. I have been told that he intends to visit the Chicago Fair before it closes and I would be glad to be advised when that will be if you know anything about it.

Any help that you can give me in this respect would be much appreciated.

Very truly yours,

GAL/G

George A. Lyon

June 14, 1933.

Dr. George C. Shattuck
Harvard Medical School
Longwood Avenue
Brookline, Massachusetts

Dear Shattuck:

I acknowledge receipt of your letter of June 13. I will be glad to do the best I can for you on copies of Kennedy's Camp Cooking, but I must first have some word from him as to his revision.

I think Major J. T. Burwash would be a much better man to tackle the Arctic Clothing item. He is in charge of the Districts of MacKenzie and Franklin for the Canadian Department of the Interior, covering about 1,000,000 square miles, makes annual visits through this territory, and is probably the greatest living authority on Arctic travel exclusive of the highly organized expeditions, like Admiral Byrd's. It seems to me that it is that type of information which our members would find most interesting. The boys who went with Byrd were all more or less inexperienced college undergraduates and could not speak with the same authority, I should think. I will be glad to write to Major Burwash, who was one of our speakers in early 1931, but will not do so until I get your acquiescence.

I have heard from Dr. Cushing and he says he does not know how to get in touch with Sven Hedin. He states he is in China and does not know when he will come back but thinks he will be here to visit the Chicago World's Fair before it closes on the 1st of November. As I can think of no one else to revise the Camel Section, it seems to me we have got to try to get in touch with Dr. Hedin by letter or wait until he comes over here in the fall. I am inclined to think that the present chapter will probably require little if any change. I am following up this matter again now.

Sincerely yours,

George A. Lyon.

June 14, 1933.

Dr. Harvey Cushing
Peter Bent Brigham Hospital
Huntington Avenue
Brookline, Massachusetts

Dear Dr. Cushing:

I am very much obliged to you for your prompt reply to my letter of the 12th about Sven Hedin, and I shall not trouble you further in the matter but if I can get any line to follow I shall do it myself. Perhaps we can catch him on the wing when he comes to the Chicago Fair, which I think ends the 1st of November.

Again thanking you for your friendly assistance, believe me

Sincerely yours,

GAL/G

George A. Lyon

Boston, Mass.

June 21, 1933.

Dr. Sven Hedin
c/o Royal Consulate General of Sweden
96 Rue Marcel Tillot
Shanghai, China

Dear Dr. Hedin:

You may remember me as the Secretary of the Harvard Travellers Club in Boston, of which you were made an Honorary Member last year at the time when we were so proud to have you as the speaker at one of our Special Meetings.

In 1917 the Club published its "Handbook of Travel", which was so favorably received that it is now out of print. A Committee has been working for some time under the direction of Dr. George S. Shattuck revising this Handbook and bringing it down to date. In that book the Section on "Camel Travel in Africa" was written by Eric Bates, a member of the Club. It was entitled "Dromedary" and was divided up as follows:

- Selection of Camels
- Care of Camels
- Baggage and Riding Camels
- Riding Equipment - Water - Food
- General Precautions

It also included a line-cut of a camel-box and a diagram of the method of slinging camel-boxes. These two cuts took up a page and the printed matter about eight pages, with 250 to 300 words to the page.

Mr. Bates is dead and we have no member of our Club at present who is competent to revise such a chapter to date. I have the temerity to write you to ask whether you would be willing to do it for us. It should be a subject upon which you can right easily and with great authority. Unfortunately, I cannot send you a copy of the Handbook now because it is most difficult to get anyone to lend a book as it is so rare. The two figures in the article mentioned above could easily be copied

Dr. Sven Hedin - #2

6/21/33.

if they are what is still advised. We would be willing to give you complete discretion on the subject, the only limitation being that the article should deal with essentials and be as brief as is consistent with the purpose. If you felt that you could do this, please send the manuscript to me together with a carbon copy.

I fully recognize that this is asking a great deal on such short acquaintance but I believe you will find the character of the book one to which you would be glad to contribute and you certainly would be helping us a great deal by your cooperation. I understand it is possible that you may be in America this Fall, but we are hoping to get the book in the printer's hands not later than October. If you are favorably disposed to this suggestion and will let me know, I will make a strenuous effort to send a copy of the old edition to you.

With very kind regards, and hoping that all is going well with you in your present undertaking, I am

Very sincerely yours,

June 24, 1933.

H. T. C.

Dear Mr. Lyon,

My "Camp Cooking" chapter is now written out long-hand. It has been delayed by a severe cold in the head. It will now go to be typed. I am hoping a Swiss girl will make a typed copy more legible than my long-hand. But that remains to be found out.

Please send this letter to Dr. Shattuck to show him the job progresses. I have wanted to write much more than I have. But I have tried to make it short so as to be only one chapter among others.

Cordially

Sinclair Fenwick

Bronson

Dear Mr. Lyon.

When my husband is away, I am commissioned to open his mail. He is at present in Great Bear Lake. I don't know whether you will think it too long to wait for the information or not. It will take well over six weeks I'm afraid. However I have sent your letter & the papers on to him, and am writing you so that you wouldn't be wondering why you had no reply.

Yours sincerely.

Hazel K. Burwash.

Boston, Massachusetts

Dear Mr. Lyon,

Enclosed is a letter from Sinclair Kennedy, which I picked up at the Club Office. His copy of the History was sent to his New York address. Shall I send another copy. I have not yet received his check for the first copy.

I have received \$152.00 on account of the Club history.

Very truly yours,

Harold E. Orendorff

June 28, 1938.

Harold E. Orendorff, Esquire
41 Walden Street
Concord, Massachusetts

Dear Mr. Orendorff:

I acknowledge receipt
of your letter of June 27, and en-
close copy of a letter that I have
just written to Mr. Kennedy.

Another copy of the Club History
should be sent to him and at the
same time send him a bill for \$2.00.

Very truly yours,

GAL/G
enc.

George A. Lyon

June 29, 1933.

Dr. George C. Shattuck
Harvard Medical School
Longwood Avenue
Brookline, Massachusetts

Dear Dr. Shattuck:

I have just heard from Sinclair Kennedy who is in Switzerland and he tells me he is working hard on the Camp Cooking Section and will send it along as soon as possible.

He makes what seems to me to be a very interesting suggestion, namely, publish the Handbook bound in sections covering each subject referred to, the point being that anyone starting off on a trip can detach and take with him only the sections that he requires. This might also induce the purchase of more than one copy if properly edited, so that one copy could be kept in the library and the other used for cutting up.

He also suggests that we try to get Stefansson to do the Arctic Equipment Chapter. I have not yet heard from Burwash but if he does not handle it, this is a good idea of Kennedy's.

Sincerely yours,

GAL/G

George A. Lyon

Copy to Mr. Orendorff

June 29, 1933.

Sinclair Kennedy, Esquire
Val-Mont
Glion, Switzerland

Dear Mr. Kennedy:

Your two letters of June 2 and 3 have reached me. They were not received more promptly because they were addressed to 2 Divinity Avenue, Cambridge, and they are pretty well closed up out there.

A copy of the History was sent to your New York address, but I am having another copy sent to you as above. The price is \$1.00 per copy and I am asking you to pay for both copies by enclosing a bill for \$2.00 which I hope will be all right.

Your suggestion about publishing the Handbook in sections seems to be an excellent one, and I will pass it on to Dr. Shattuck, who is the editor-in-chief. As soon as you get your section on "Camp Cooking" completed, will you be good enough to forward it to me promptly with a duplicate copy, or if possible two or more carbon copies? The address most apt to reach me quickly is P. O. Box 2287, Boston, which is my personal mail address.

We are having trouble with our "Camel Section". I asked Bertram Thomas to do it but he is too busy. I have recently written to Sven Hedin but it will take some time to reach him as he is in China. If he fails us I do not know who we can get as Oric Bates is dead.

Your suggestion as to Stefansson for the "Arctic Equipment" is good, as he is a member also but we are not able to reach him here. For that reason I have asked Major Burwash, who is in charge of the Districts of McKenzie and Franklin in northwestern Canada for the Canadian Interior Department, and who has spent some thirty years in the Arctic and travels there every year as part of his job. He also talked to us last year on the Franklin Expedition, and I think is a very competent person for this work. If he cannot do it, we will have to try Stefansson if we can find him, although we have two of the younger members of the Byrd Expedition as Club members.

With kind regards, I am

Sincerely yours,

GAL/G

Dear Mr. Lyon

Enclosed is letter from Sinclair Kennedy which I found
this morning.

I sent the second copy of the History to him abroad and
billed him for 2 as you suggested in your letter of last
week.

Very truly yours

Harold E Orendorff

Peking July 20. 1933

Dear Mr Lyon

To be returned to Lyon

Certainly I will never forget
the charming evening of March 1. 1932
(also very sad on account of the fate
of the Lindbergh baby.) I received from
you the honor to be Club and
Harvest Fellowship member of it.
I would be delighted
of course to contribute to the new edition of the
Handbook of Travel, but I am revising
I am very incompetent of "Carnet
the Section of Africa", which as you say
Travel in Africa", down to date. The
should be brought down to date. The
First of all I should have before
original outside in my hands will
being able to change it, and before it
take another 2 months before it
could be sent. And I will be sure
at all sure that now I am going
in 2 months from now I am going
not quite certain where Peking.
to be if not in Peking.
is that I have never been in Africa
and have no experience what through
of adventures except a journey from
Baluchistan in 1906, where however,
the conditions are very different from
those in Africa.

If the question had been about
"Camel Travel in Asia" it would
have been easy, as I have travelled
so much in this continent.

But, as I said before, my plans
are too unsettled, and as you don't
speak at all about Asiatic travels,
it would be of no use for me
to write about my experiences. But
if this is a mistake, I may perhaps
suggest a very brilliant writer
who knows a lot about camels and
who may be in Boston - anywhere
I know him. He is in U.S.A. viz.
Mr Owen Lattimore who is a great
traveler of mine and writes about
his long and important career in
Asia.

Finally I thank you most
heartily for thinking of me, I hope
a nice and flattering way in such
we shall meet again in your
and that I shall have again (an
opportunity to address the Travelers Club.
With kindest regards
Yours very sincerely

Owen Hedrick

SWITZERLAND

July 21, 1933.

H.T.C. Handbooks

Dear Mr. Lyon,

as you say in your June 29, my June 2 + 3 letters were sent to 2 Dumbuck Ave. However a first copy of "Camp Cooking" was sent likewise. In future I will address Box 2287.

Thanks for the two copies of the History of H.T.C. I enclose check for two dollars.

The day I received your June 29, I observed by the enclosed picture received by me the same day, why you had had trouble with the "Camel Section".

Hope the "Arctic Equipment and Methods" section is done by Stefansson or Major Burwash.

I am sending enclosed one copy of "Camp Cooking" - revised slightly, by changing a few words in next to last paragraph. Please correct the previous MS by reversing these few words. After a few days I will send a second copy of "Camp Cooking". And later I will send a third copy. With each is my covering letter of June 29, which may be left attached to explain to critics my method of approach to the topic.

The Swiss typist did a better job than I expected. So there are but few corrections on these three copies of "Camp Cooking".

Cordially
Sinclair Kennedy.

P.S. I have ~~drafted~~ ~~submitted~~
for your handbook -

There is a type writer 20
miles north of here and I am
on my way there but a plane
has dropped down at our
camp and I will send this
by it -

I will send the draft
by next mail - one week
from now -

Just at present we are
following a stampede to
a new area - an Indian
showed up with walrus

skins hence the stampede
we have seen the source of
his skins and found that
skins occur but as far
in a very narrow break
game trail

go a bit further with regard to some details -

So far we have travelled about 1050 miles by canoe coming from Mc Murray via the Athabasca R Slave R Slave Lake - Marson R and lastly the Camwell R with 51 portages in all. We were delayed twelve days by ice on Great Slave Lake (between 6th and 18th of June) and again had to combat heavy floes on Hattah Lake which lies about 40 miles south of this camp. This on July 6th & 7th. I expect to spend the summer and possibly up till November next in this area where we have several groups of prospective mining claims. As I have not yet started the main mining ventures I cannot report on their present outlook. Thanks very much for your suggestion that I visit your

Cameron Bay

Aug 3 - 1933

George A Lyon Esq
PO Box 2287
Boston Mass

Dear Mr Lyon,

I enclose copies of extracts
from Harvard Travellers Club Handbook
of Inuit as requested.

I have already mailed an article re
clothing & bedding for arctic use
but notice that you have underlined
two other sections in the index -

A 8 - re Diseases of transport animals -
with us this means sled dogs -

The main trouble with us is a ^{recurrent?} ^{similar?} ^{serious}
form of distemper or some ^{serious} sickness

This is epidemic and in my experience
is fatal in about 90% of cases observed.

This disorder has been studied in the ^{part} of

Merely stated when
Back Packing - should be inserted 447

Two years - by several capable men - I have not yet seen the results of their work but I think anyone interested can get valuable information by consulting Dr Peter Henke - Washington University - St Louis Mo - USA -

Dr Henke accompanied me north in 1931 - and was fortunate in securing a head of a dog that had died from this trouble. He later advised me that they were working on a ^{culture} ~~culture~~ of the ~~disease~~ ^{disease} ~~germ~~ ^{germ} and had promise of producing a protective ^{serum} ~~serum~~. I have not however received his final results -

C 5 Camp equipment etc -

Primus stoves & Coleman stoves ^{stores} with gasoline for the Coleman or ^{oil} coal oil for the Primus ^{will be used} when on the trail but the main camp should be heated by coal or fuel oil -
Tents will be of use when on the trail

during summer and between seasons -
 but the native igloo (snow house) is much
 preferable during winter -

Skis will be most useful to those
 accustomed to their use - ordinary
snow shoes will be of little help.

Fire arms to be taken will ^{vary} with
 the personal ideas of the members of the
 party but a good heavy rifle and a
 22 repetition are really a necessary
 part of the outfit.

Canoes with outboard motors will be of
 use if the work ^{lies} ~~is~~ along the ^{Coast} coast
 but for more ^{extensive} ~~extensive~~ ^{traps} the
 standard whale boat ^{whale boat} fitted with a
 light inboard motor is an ideal
 combination.

Qlids may be of several ^{several} designs but the
^{some} ~~some~~ sled with ^{some} ~~some~~ type of dog harness
 is, in my opinion, the best -

Dehydrated dog feed ~~can~~ taken from civilization
 will help greatly in winter ^{travel} travel.

This may consist of ordinary ^{dried} feed or, ^{possibly} better, fish-meal from the fish-oil mills which is mixed with tallow and made into ^{round} ^{bricks} ^{bricks} which for convenience in packing should be put in cardboard cartons. This latter dog feed should be purchased for not more than 10 cents per pound - which is less than the standard price of dried fish -

Snow glasses -

glasses of several ^{densities} should be carried - ^{They should be close?} They should at least protect and sides and every effort should be made to aid ventilation inside the goggles as with ^{even} the best ^{designed} glasses ^{trouble} trouble is experienced from condensation on the ^{inside} inside of the glasses -

a liberal supply of ^{Boracic} Boracic acid with eye cups for the ^{backing} backing of snow blindness in its various stages must be included in the medical stores -

Hoping that the above will be of some help

Yours truly
 L. L. Burrows

Cameron Bay
Great Bear Lake

Aug 4 - 1933

George A Lyon Esq
PO Box 2287
Boston Mass

return to Lyon

Dear Mr Lyon, -

I beg to enclose two
copies of an effort to outline
arctic clothing etc - which I hope
may be of some use to you -

you are quite at liberty to use this
in any way you may see fit -
with it or use it all or in part.

Great Bear Lake silver and tadium
areas are quite busy - more people
arriving daily - The first power boats
started here only yesterday - Ice
flows are still to be seen in the main
lake but it is quite warm
on shore - too warm in fact for

Compart -

My present programme is to
stay north until mid October and
then move west to Fort Norman
where I should meet a plane going
south.

With best regards

your love

L. Hurwash

August 8, 1933.

Dr. George S. Shattuck
Harvard Medical School
Longwood Avenue
Brookline, Mass.

Dear Dr. Shattuck:

I have received from Mr. *Sivlain* ~~St. Clairs~~ Kennedy three copies of his manuscript covering the chapter on cooking, and I also heard from Major Burwash saying that he would prepare (and actually was preparing) and would forward in due course a revision of the chapter on Arctic equipment. These will be sent to you as soon as you advise me where you wish them sent. That leaves only the camel chapter. You know that I have already written to Sven Hedin in China at the suggestion of the Swedish Consul in New York but have received no reply and hardly expect to.

The enclosed will show you why Bertram Thomas was so "extremely busy" that he could not help us out.

Sincerely yours,

GAL/MM

Copy to Northeast Harbor, Maine.

Mr. George A. Lyon,
P.O.Box 2287,
Boston, Mass.

Dear Lyon:

I forget how we left the Arctic Travel question. Warner thinks Stefansson would write it and says he is at the Harvard Club, in New York. Unless other arrangements already made, will you try him or shall I? Lattimore's manuscript on the Bactrian camel received. It is excellent. Practically all manuscript now in hand except for Phillips and Weld Arnold (who was smashed up last spring).

Where is Phillips now?

Sincerely yours,

G.C. Shattuck
7

GEORGE CHEEVER SHATTUCK, M. D.
HARVARD MEDICAL SCHOOL
BOSTON, MASS.

August 11, 1933

Dear Mr. Lyon:

The enclosed letter from Dr. Shattuck was sent to me by him from Northeast Harbor, Maine, to type and send to you. Meanwhile, your letter to him of August 8th has been received and I shall forward it to him in Maine.

Will you be kind enough to send one copy of Mr. Kennedy's ms. on cooking to me, at the above address, and one to Dr. Shattuck at Northeast Harbor so that he may go over it and send it back to me with his revisions, if any. Dr. Shattuck would like one copy for the office and one to send to the printer when in final form.

The camel chapter has been received, Dr. Shattuck has gone over it, and I have finished typing it in final form, - 2 copies. This was written by Owen Lattimore.

When Major Burwash has his manuscript ready, I think it best be addressed to Dr. Shattuck at the Harvard Medical School, 240 Longwood Ave., Boston. Major Burwash might not have it finished by the time Dr. Shattuck leaves Northeast.

Very truly yours,

*Alice B. Sewell
sect'y.*

GEORGE CHEEVER SHATTUCK, M. D.
HARVARD MEDICAL SCHOOL

August 14, 1933

Copy of letter sent by Dr. Shattuck
to be typed and sent to Mr. Lyon.

(Northeast Harbor, Maine
August 10th)

Mr. George A. Lyon
10 Post Office Square
Boston, Mass.

Dear Lyon:

Yesterday I wrote you a letter suggesting Stefansson for arctic equipment and today I received a copy of a letter from you dated August 8th saying that Major Burwash is at work on it. That is all to the good, and no need to bother about Stefansson.

Please send all manuscript to me at the Harvard Medical School where my secretary will take charge of it and will forward me a copy.

Through Langdon Warner I received an excellent section on the Asiatic Camel (Bactrian) by Lattimore. We can reprint Bates' on the African unless you can think of someone to revise it. We need not bother with Sven Hedin any more except to send him another letter, if you will, saying that Lattimore has done the job. This is in reply to yours of Aug. 8th in which you refer to Bertram Thomas and an enclosure relating to him. There was no enclosure.*

We have nearly everything in hand now except for Phillips' and Weld Arnold's sections and some more which I must do myself. After I get home, about September 15th, I will shake the tree again.

Sincerely yours,

G. C. Shattuck

*Mr. Lyon: I sent your letter with B. Thomas' picture to Dr. Shattuck on Friday last.

A. B. Newell, secty.

August 16, 1933.

Dr. George C. Shattuck
Harvard Medical School
240 Longwood Avenue
Boston, Mass.

Dear Dr. Shattuck:

Attention Miss Newell

I have received your several letters under dates of August 10th, 11th and 14th, and attach hereto copy of a letter just written to Dr. Hedin, which is self explanatory. I think we will have to use the Bates section as it is.

I enclose letter from Dr. Hedin and also the correspondence with Mr. Kennedy and Major Burwash, and their manuscripts. I have gone over both and they seem to be pretty good. Possibly Kennedy's ought to be boiled down somewhat, and that is what an editor is for. When you are through with the personal letters from these gentlemen, I will be glad if you will return them to me. I think you will find them all quite interesting.

You will notice that Dr. Hedin suggests Lattimore as a good man.

If I can be of further help to you in any way please let me know.

Very sincerely yours,

GAL/MM

George A. Lyon.

GEORGE CHEEVER SHATTUCK, M. D.
HARVARD MEDICAL SCHOOL
BOSTON, MASS.

September 7, 1933

Dear Lyon:

I have just been over Major Burwash's manuscript and find it just right as far as it goes, but I wish there were more of it. For example, I should like to know (1) his views about food to be taken; (2) the avoidance of scurvy; (3) the treatment of frost-bite, and much more about the prevention and treatment of snow-blindness, the use of goggles, what kind of goggles, etc.

His last letter indicates that he is expected back by plane about mid-October. Please send me his full name and address so that I can correspond with him then about these matters.

I see no prospect of getting the book to press much before Christmas because several important sections are not yet in.

Sincerely yours,

George C. Shattuck

August 15, 1933.

Dr. Sven Hedin
c/o Swedish Consul General
Peking, China.

Dear Dr. Hedin:

This is merely to acknowledge receipt of your very kind letter of July 20th and to thank you so much for the pleasant sentiments that you express and for your trouble in writing so fully.

Curiously enough your letter which arrived today, August 15th, came at the same time that I heard from Dr. Shattuck, who is the editor-in-chief of the new Handbook, saying that through Langdon Warner, Owen Lattimore (of whom you speak so highly) had just completed an excellent revision of the section on the Asiatic (Bactrian) Camel.

We are, of course, disappointed to find that you have not been in Africa to the extent that I thought you had, and of course the time element is an important matter, so perhaps it would be better not to press you further on this matter. I do not think we will go far afield by reprinting Bates' article if we can find no one to revise it. Bertram Thomas would have been a fine man for us but he has just gotten married and so we feel disinclined to follow him up.

We do very much appreciate your extremely friendly attitude and your willingness to undertake the job in spite of the limitations that you call attention to, and we hope that when you come to the United States we may have the pleasure of a visit from you in Boston.

With kindest regards in which I know Dr. Strong would join with me most heartily,

Very sincerely yours,

George A. Lyon.

August 16, 1933.

Major L. T. Burwash,
Great Bear Lake,
Northwest Territory,
via Edmonton,
Alberta, Canada.

Dear Major Burwash:

This is a brief note to acknowledge receipt of your kind letter of July 23rd which I read with much interest and the subsequent letters of August 3rd and 4th from Cameron Bay returning the outline for the Travellers' Handbook, and two copies of your revision of the Arctic Travel chapter. I note that you are staying North until mid-October and then expect to move west to Fort Norman and then back home by plane, so that I presume that this acknowledgment will not reach you for some time, but I am sending a copy to Mrs. Burwash in Cobourg.

I cannot tell you how much I appreciate your willingness to do this work for us as it must involve a good deal of trouble in view of the lack of facilities. I am turning the papers over to Dr. Shattuck who is the editor of the new Handbook and I note your very kind statement that we are at liberty to use this information of yours in any way we see fit - rewriting it or using it all or in part. Nothing could be fairer than this. The manuscripts of practically all of the revised chapters are now in hand and we hope to get the book out within a relatively short time.

I am extremely interested in your brief report of what is going on up in that mining country and hope that there may be an opportunity to see and talk with you after you get back. That section has great possibilities of course.

With very kind regards and renewed thanks,
believe me

Sincerely yours,

George A. Lyon.

December 27, 1933

Dr. George C. Shattuck
Harvard Medical School
240 Longwood Avenue
Brookline, Massachusetts

Dear Shattuck:

I had a talk with Mr. W. B. Cabot the other evening and he inquired about the Handbook and how the revision was coming along, and particularly whether any of his "stuff" (as he called it) was being used in the new edition. If so, he asked whether he should not have the opportunity to go over it either in its original form or the revised form, assuming that someone had been revising it.

I told him that I knew very little about just how nearly completed the revision was and he then asked me if I would take the matter up with you. Offhand, it would seem to me that his point of view is a reasonable one unless it would delay our progress to refer the subject matter to him for review.

I will send this letter to you and then follow it up by telephone when you have received it.

Sincerely yours,

GAL/G

Dr. George Cheever Shattuck
The Harvard Medical School
Longwood Avenue
Boston, Massachusetts

Dear Shattuck:

In thinking over our meeting of late yesterday afternoon, it suddenly occurred to me that with your usual modesty the only reference to yourself in the Revision of the Handbook was in placing your name last as Chairman of the Committee. I certainly think that you should appear as the Editor of the new book, or Revised Edition if that is what it is to be called. Dr. Allen's name appeared as Editor of the old edition and I do not think that the names of his assistants were mentioned. If you wish to have the Committee names appear at the end of the Preface, as you have arranged, well and good, but I feel quite strongly that your name should be placed in a prominent position as the Editor, and I think the other members of the Committee will agree with me on this.

Sincerely yours,

GAL/G

George A. Lyon

Copy to - Thomas D. Cabot, Esquire

Hope you do agree with
Shattuck did go to get the work and
reserves the credit. ^{Mr.}

~~Dear~~ T.D.C.

Dear Tom:

Reprints of chapters from the Handbook of Travel have been asked for as follows: David H. Linder, Howard Palmer and Francis Colby. Colby says: "I'd be glad of a couple of copies of the final draft" I don't know just what he means by this. It would probably be easier and cheaper for him to get it type-written after the book is published, but perhaps we could send him some page-proofs which I imagine would be sufficient and entirely satisfactory to him.

After I know what the volume will cost, I may want to take up the question of having perhaps 25 reprints of Part IV; and in this connection, I should like to suggest that it would be very useful to allow the chapter-headings to remain as they are in the chapters in Part IV, namely, to list at the head of those chapters the sub-division as well as the main headings of the material contained therein.

It may be that the publishers will object to supplying me with reprints of Part IV on the ground that it might interfere with the sale of the book.

One other point: Sinclair Kennedy wrote to Lyon suggesting that the sections covering each subject referred to be bound in such a way that they can be detached without ~~destroying~~ the rest of the book. This, I should think, would involve, ~~if done~~ ^{done} on a chapter basis, beginning and ending each chapter on pages which are separate from those of other chapters. The idea doesn't appeal to me particularly, because the book as a whole will be small and I think few people would want to subdivide it further.

I have had cover-sheets made for each chapter, on which the main headings only are presented. But I have left attached to each chapter the old sheets covering ~~it~~ it, which had the subheadings listed on them. These subheadings may be of convenience in making the Index.

My secretary has been checking and verifying all references. This part of the work is not quite finished, but the book-lists are included in the original copy of the mss. herewith, and if there are any corrections to be made in those references remaining to be checked, she can notify your office before the book goes to press or they can be put in on the galley-proof.

Sincerely yours,

Mr. Thomas D. Cabot
940 Old South Building,
Washington St., Boston.

May 4, 1934

Doctor George C. Shattuck
Harvard Medical School
Boston, Massachusetts

Dear George:

I have turned the original of the manuscript of the Handbook of Travel over to Duncan Phillips, who wants to look it over before discussing with me arrangements for publication.

Yours very sincerely,

TDC:MN

940 Old South Building
Boston, Massachusetts
May 4, 1934

Mr. Duncan Phillips
Houghton Mifflin & Company
2 Park Street
Boston, Massachusetts

Dear Mr. Phillips:

I hand you herewith the manuscript of our proposed new Handbook of Travel. When you have gone over this and are ready to talk to me about the best means of having it published, kindly call me at Liberty 1871, and I will be glad to come up and talk to you at your convenience.

The work has been edited by Doctor Shattuck and, as you will note, was contributed by about 25 members of the Club and 14 non-members. The work is the property of the Club and we wish to have the copyright owned by the Club. It is my duty to make a report to the Council as to the best method of getting this manuscript published. We have subscriptions from members of the Club for 175 copies. I think we can get almost as many more when we are able to name a price for the book. Although the manuscript was prepared largely for the benefit of the members, we would also like to offer the book for public sale, and for this reason it seems desirable to make some sort of an arrangement with a publishing house. However, if this doesn't seem feasible, we will probably simply have the book printed and distributed by the Club.

I also enclose a copy of the previous Handbook of Travel which was published in 1917 by the Harvard University Press. Our thought is to have the new edition in the same form. Perhaps a little thinner paper would be desirable and a little narrower margin, so that there are more words to the page. You will note that there are none of the tables contained

in the previous edition, but the written matter is somewhat longer. We would be glad to consider a slightly larger page, but we want the book small enough to be used in the field. Some of the last edition were put out with a rough brown canvas covering to the binding. We would prefer to have all of this edition so bound. The manuscript does not include an index, which will have to be prepared when we have the page proofs.

Yours very sincerely,

Thomas D. Cabot, Secretary
Harvard Travellers Club

Dear Tom:

On Saturday I had lunch with Jim Spring at the Country Club and he showed me a very handsomely bound volume in skeleton form prepared by the National Fox Terrier Club, of which he is Secretary I think. He said that this had been published by Edgar B. Sherrill, 881 Commonwealth Avenue, very reasonably and was to be sold at \$3.50 a volume, which represented a substantial profit. He spoke highly of these people as a small publishing house, and the appearance of the book made an excellent impression.

Philmpton Press ✓
I have also had mentioned to me Billie Orcutt, of the Norwood Press, who did the History of the Brookline Country Club recently published and an excellent example of good work.

I thought possibly these suggestions might be helpful.

Sincerely yours,

George A. Lyon

Handbook

Dear George:

I am getting propositions on the Handbook from the University Press, Little, Brown & Company, and Edgar Sherrill. I already have an estimate of \$1250 for 1000 copies from the Jordan Moore Press. I hope by the first week in July to have some recommendations for the Council as to what we should do. It is quite evident to me that we won't find any publishing company willing to take the risk of publishing, unless we guarantee printing cost.

Yours very sincerely,

Frederic D. Cabot

HTC Handbook

Dear George:

I have sought propositions on publishing the Handbook from Houghton Mifflin Company, the Harvard University Press, and Little Brown & Company, who are both publishers and printers; and in addition have obtained printing prices from the Jordan & More Press, the Sherrill Press, and the University Press (not to be confused with the Harvard University Press). None of the publishers would undertake the risks of publishing. The first two offered propositions under which we would pay the cost of printing in their plants, which in each case ran more than twice the cost of printing in one of the independent print shops. We would then own the books until sold, and they would act as sales agent for the books on a commission basis (15% to 20%) which would cover the selling, shipping, billing, and collecting expense, and would include listing in catalogs, etc., but would not include direct advertising which would be for our own account. On account of the high printing cost, neither of these propositions seemed attractive to me.

I have, after some persuasion, received a proposition from the Harvard University Press which would permit us to get the book printed by one of the independent printers, the book to be identified as a publication of the Harvard University Press, and to be sold by them. They would charge us 15% of the list price of the book, and in return would have their salesmen push the book by calling on the principal book stores of Boston, New York, Philadelphia, Chicago, etc. The book would be listed in their catalog which is published twice a year, and would be listed on jackets of other related books which they publish. They would not undertake any direct advertising, except at our direction and expense. Their fee would cover all of the cost of packing and shipping the books, and of billing and collecting for them. I have tried to get excepted from this arrangement the books going to our own members, but they are unwilling to do this, but will wrap, ship, and bill the books ordered by our members.

Roger Scaife of Little Brown & Company suggests that the publication be under our own imprint, as he believes that we can sell

the book about as well ourselves as any publisher can. I point out, however, that this will mean a lot of work for someone, as we have no good facilities for storing, wrapping, shipping, billing, and collecting, nor for sending out direct mail advertising, and receiving orders. I am inclined, therefore, to recommend the proposition of the Harvard University Press. Another reason for this is that they own the copyrights on the previous edition, and might not relinquish these if we go elsewhere.

On printing, the lowest price was offered by Jordan & More Press; the best printing samples by Sherrill Press. I think we can get the Jordan & More Press to do a satisfactory job for \$1300 on an edition of 1,000 copies, \$1625 for 2,000 copies, or \$1800 for 3,000 copies. Sherrill would cost about \$400 more. The prices are not exact because no two printers have figured on exactly the same number of pages, number of zinc cuts, quality of bindings, etc., but they are relatively correct for a book of 600 pages (4 $\frac{1}{4}$ " X 7"), good grade of 40# paper, buckram or drill bindings, head bands, 10 zinc cuts, no jackets, and no half-tones. The type would be set as mono-type.

It would be my idea to have an edition of 1,000 copies, and to ask the printer to keep the type set up for a year, which he will do free. I recommend a price of \$3.00 each, which would net us \$2.55 when sold direct, or about \$1.90 when sold through a book store. Last winter there were 165 copies spoken for by members with no price named. I estimate that we will sell 200 copies to members, 200 copies through book stores, and 300 copies to members of other travel, mountaineering, museum, and outing organizations, whom we could circularize at a cost of about \$200. This would bring us in \$1450 net. These are guesses rather than estimates.

I have found it impossible to get a meeting of the Council on account of absences, and am, therefore, writing you for your ideas. Please let me know: (1) shall we employ an independent printer; (2) shall we get a publisher to handle the selling, or do it ourselves; (3) how large an edition shall we undertake; and (4) what price shall we put on the book to members and to others.

With best regards, I am

Yours very sincerely,

Godfrey L. Cabot

Dear Mr. Robinson:

I have yours of February 9, and will send you a check for \$50 paying your bill in a few days.

I understand from Doctor Shattuck that the work involved was a good deal more than you estimated, and he recommends that we increase your compensation to \$65. This I will be glad to do when the Travellers Club can afford it, but we are going to be in straitened circumstances for a few months until we begin to get money from the proceeds of the book. If the sale of the book is up to expectations, you may expect another check from us later.

Yours very sincerely,

Thomas D. Cabot, Secretary
Harvard Travellers Club

TDC:MN

April 5, 1935

Mr. Roger L. Scaife,
% Little, Brown & Co.,
35 Beacon Street,
Boston, Mass.

Dear Mr. Scaife:

I enclose copy of a letter from Mr. Pottinger with regard to the "Handbook of Travel".

As you know, we are selling this book for \$3.00 a copy and paying the Harvard University Press 15% for handling it. The cost of printing was about \$1400. a thousand copies, of which only 500 have been bound. We have sold about 200 copies to date, mostly to our members and these are being shipped out this week.

I don't know anything about the book selling business, nor do any of my associates on the Committee, and it has been suggested that I impose on your good nature by asking for expert advice.

The problem seems to be whether or not we will sell enough more books by increasing the discount to retailers to justify us in doing so. It is my impression that most of the sales are going to come from direct mail advertising, but your opinion on this will be most useful.

I am sure we will all be very grateful for any advice you can give us.

Yours sincerely,

TDC:A

April 5, 1935

Doctor A. Hamilton Rice,
301 Fifth Avenue,
New York City.

Dear Doctor Rice:

I enclose copy of a letter received from Mr. Pottinger with regard to the sale of the Handbook. I know you have had a good deal of experience in selling books, and would appreciate very much your advice as to what we should best do about this.

The printing of 1000 copies and binding 500 has cost \$1350. plus \$50. for indexing. Our members are taking 165 copies at \$3.00 apiece. The arrangement with the Harvard University Press is that we shall pay them 15% of the retail price for listing in their catalog, shipping, billing and collecting, and that we shall pay any direct advertising costs ourselves.

The books have just been delivered by the printer, and orders, so far received, will be shipped this week.

We have not paid the printer's bill yet. I am still trying to get a little chipped off the extras for author's corrections, cuts, etc. It is my plan to draw \$800. from the Savings Bank, which represents the Life Membership Fund of the Club, and pay the remaining \$550. out of current funds, and to reimburse the Life Membership Fund from time to time, with the proceeds from the sale of the book.

As you can see, this is depleting our treasury pretty severely and we must liquidate our stock of books without too much delay. I have asked one or two other members of the publication committee what they would recommend, but they all dodge the question on the ground that they know nothing about the book selling business. Hence I

--2--

come to you for advice and will appreciate very
much any you can give me.

TDC:A

Yours sincerely,

April 10, 1935

Mr. Harold E. Orendorff
41 Walden Street
Concord, Massachusetts

Dear Mr. Orendorff:

I have drawn \$400 out of the Club's account with the Provident Institution For Savings, and enclose a check for this amount to be deposited in the First National Bank of Boston. I also enclose a bill from Jordan & More for printing the HANDBOOK OF TRAVEL. They have agreed by letter of April 1 to take \$25 off this bill. Please, therefore, make a check to them for \$1350.04, and send it to me for signature.

Also please send me financial statement as of April 1.

I want to pay all the outstanding bills of the Club before April 30. Please see that checks are made out accordingly.
