Hi Robert

Yes railings completed back on the 8th of July- pics attached.

I haven't heard from Phill but will reach out now to get an updated timeline.

Thanks
Brad

A photograph showing a wooden floor under construction. The floor is made of light-colored wooden planks. A staircase with wooden steps and a black metal railing is visible in the upper right. In the lower left, there is a stack of wooden planks and a pair of black pliers.

Hello Brad,

Can you give me an update on the Meetinghouse project?

1. Where are you on the stair rails? Has the work been completed?
2. Have you heard anything recently from Phil D'Avanza re the Clock?

- When will he re-insall the numerals, hands, etc.?

In order to do that he will have to work with you as far as a lift is concerned.

I want to make sure it doesn't conflict with any event scheduled for the MH. Avoid the first week of August.

It's **VERY** important that I be there when the re-installation happens so be sure to tell me when it will happen.

Regards,

Rob
